## CMM 05-2019 Commission Record of Vessels authorised to fish in the Convention Area

**Para 2:** Describe how you take into account the vessel and operator compliance history when considering whether or not to authorise a particular fishing vessel

To fish in the SPRFMO Convention Area, Australian flagged vessels must hold a High Seas Permit. For Australia to issue a High Seas Permit, the vessel must be Australian-flagged. Compliance checks are conducted as part of the process of deeming vessels as Australia. The history of the operator and the vessel, including any IUU listing, is taken into account when deciding whether or not to authorise a High Seas Permit for a particular fishing vessel.

**Para 3:** Describe the measures you have taken to ensure that you are able to take effective enforcement actions against the owners of vessels flying your flag should the need arise

For Australian vessels operating in the SPRFMO Convention Area Australia imposes conditions through High Seas Permits that are consistent with SPRFMO CMMs. Australia enforces these requirements through a suite of MCS measures including observer coverage, inspections, adequate penalties through domestic legislation, warnings, fines and education and outreach.

**Para 4:** Do you maintain your own register of fishing vessels for the SPRFMO Area?
