

ANNEX 2¹

Template for the Implementation Report of the SPRFMO Conservation and Management Measures

SPRFMO Secretariat

Number of obligations per CMM

CMM	Conservation and Management Measure	Nº of Obligations
01-2019	<i>Trachurus murphyi</i>	18
02-2018	Standards for the Collection, Reporting, Verification and Exchange of Data	8
03-2019	Bottom Fishing in the SPRFMO Convention Area	29
03a-2019	Deepwater Species in the SPRFMO Convention Area	5
04-2019	Establishing a List of Vessels Presumed to have Carried Out IUU Activities in the SPRFMO Convention Area	12
05-2019	Establishment of the Commission Record of Vessels Authorised to Fish in the SPRFMO Convention Area	10
06-2018	Establishment of the Vessel Monitoring System in the SPRFMO Convention Area	23
07-2019	Minimum Standards of Inspection in Port	19
08-2019	Gillnets in the SPRFMO Convention Area	6
09-2017	Minimising Bycatch of Seabirds in the SPRFMO Convention Area	20
10-2019	Establishment of a Compliance and Monitoring Scheme in the SPRFMO Convention Area	2
11-2015	Boarding and Inspection Procedures in the SPRFMO Convention Area	15
12-2018	Regulation of Transshipment and Other Transfer Activities	10
13-2019	Management of New and Exploratory Fisheries in the SPRFMO Convention Area	4
14a-2019	Exploratory Fishing for Toothfish by NZ-Flagged Vessels in the SPRFMO Convention Area	27
14b-2019	Exploratory Potting Fishery in the SPRFMO Convention Area	20
14c-2019	Exploratory Fishing for Toothfish by EU Vessels in the SPRFMO Convention Area	34
15-2016	Vessels without Nationality in the SPRFMO Convention Area	1
16-2019	The SPRFMO Observer Programme	19
17-2019	Fishing Gear and Marine Plastic Pollution in the SPRFMO Convention Area	4
TOTAL		286

To be filled out by the Member/CNCP

Reporting Member/CNCP: Peru

Reporting period to which this report refers: 1 October 2018 – 30 September 2019

Date report prepared: 24/10/2019

¹ Annex 2 has been amended by the Secretariat as per paragraph 5b of CMM 10-2019 (CMS).

CMM 01-2019 *Trachurus murphyi*

General Provisions

Para 1: Do your flagged vessels fish for *T. murphyi* in, or adjacent to, the Convention Area?
 YES *If yes, complete the following tables and questions on this CMM*
 NO *If no, skip to the next CMM*

Table 1: Effort Management (Para 4)

Gross Tonnage (GT) Limit	GT of active fishing vessels	Nº of vessels actively fishing for CJM	Nº of vessels only engaged in transshipment(s)
55 944	0	0	0

Enter n/a if not applicable.

Table 2: Catch Management (Paras 5, 9)

CJM catch limit	CJM catch limit taking into account any catch transfers	Provisional CJM catch total
11 988		0

Table 3: Data Collection and Reporting (Paras 11, 16, 18, 22)

Nº of monthly reports provided	Age-length and/or survey information provided to SC?	List of authorised vessels provided?	Annual report provided to SC?	Observer coverage level
12	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/> Partial <input type="checkbox"/>	YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>	100%

Para 8: Do you have additional measures that limit the amount of *T. murphyi* available to your vessels to an amount less than that specified in Table 2 above?
 YES *If yes, please elaborate*
Enter relevant details here
 NO

Para 20: Did you conduct any research or stock assessments for *T. murphyi* during this past year?
 YES *If yes, please answer the question below*
 • Were they submitted to the Scientific Committee?
 YES NO
Enter relevant details here
 NO

Para 21: Did any vessels land or tranship *T. murphyi* within your ports and did you take measures to verify those catches?
 YES
 NO

Cooperation in respect of fisheries in adjacent areas under national jurisdiction

Para 23: Is any part of your national jurisdiction area adjacent to the Area to which CMM 01-2019 (*T. murphyi*) applies?

YES *If yes, please answer the questions below*

- Have you decided to apply the measures described in CMM 01-2019 (*T. murphyi*) paragraphs 11-22 within your national jurisdiction areas?

YES NO Partial

- Have you submitted measures in effect for *T. murphyi* within your national jurisdiction areas to the Secretariat (e.g. TAC resolutions)?

YES NO

Relevant details: *Peru as a member of the SPRFMO has respected and applied paragraphs 11-22 of the CMM 01-2019, and reported in electronic format monthly catches of *Trachurus murphyi* (SPRFMO Area and Area under National Jurisdiction), list of vessels authorized to fish in the SPRFMO Area, annual national reports, stock assessments and research regarding *Trachurus murphyi*.*

NO

CMM 02-2018 Standards for the Collection, Reporting, Verification and Exchange of Data

Table 4: Participation in SPRFMO fisheries during the past year (Para's 1e, 2a)

Fishing method	Activities undertaken?	Main species caught?	Nº of vessels	Activities observed? (Yes/No)
Demersal Drop/dahn line	YES <input type="checkbox"/>			
Demersal Longline	YES <input type="checkbox"/>			
Demersal Potting	YES <input type="checkbox"/>			
Demersal Trawl	YES <input type="checkbox"/>			
Pelagic Purse seine	YES <input type="checkbox"/>			
Pelagic Trawl	YES <input type="checkbox"/>			
Squid jigging	YES <input checked="" type="checkbox"/>	GIS	2	YES
Transshipment	YES <input type="checkbox"/>			
Landings	YES <input type="checkbox"/>			
<i>Other fishing methods or data (rows can be added if needed)</i>	YES <input type="checkbox"/>			

Para 1e: Were you able to meet the data collection requirements described in CMM 02-2018 (Data Standards) paragraphs 1(b), 1(c) and 1(d)? (Being information on fishing activity, non-target species impacts and transshipments/landings).

- YES
 NO
 Partial

Relevant details: *In October 2018, two artisanal jigging vessels eventually operated in the SPRFMO Convention area. Due to their small size and artisanal nature, these vessels are not required to keep an onboard logbook of their fishing operations and are not forced to provide much details of their fishing activities to fisheries authorities of the Ministry of Production (PRODUCE). However, information is compiled by IMARPE observers while interviewing fishers at the landing site in a form named "Artisanal Catch and Effort" that is clearly marked: "This information is for scientific research purposes and will be treated confidentially" (ref.: Annex 1 in Yamashiro et al. 2018). This is not official data and may be subject to changes.*

No fishing activities in the SPRFMO Convention area have been reported for the first semester of 2019.

Observer Data

Para 2a: Do you have a national observer programme?

- YES *If yes, please answer the questions below*
- Have you submitted an annual observer implementation report (para 2d) to the Secretariat?
 YES NO
- NO

Relevant details: *Peru as member of the SPRFMO, complied with submitting observer data regarding the year 2018-2019.*

Data verification

Para 4: Please describe the systems you use to verify your SPRFMO fishery data.

Peru has implemented the Satellite Monitoring System – SISESAT, which is modern satellite tracking software used to locate, monitor and supervise fishing vessel activities to effectively comply with the legal provisions regarding fishing; and to ensure the sustainable and responsible use of hydrobiological resources.

The norms established by Supreme Decree N° 001-2014-PRODUCE, determines the technical specifications of the SISESAT equipment such as: message alerts, latency means of transmission, reception and data security, satellite communication, direct emission of signals every ten (10) minutes, etc.

This system is currently administered by the Directorate of Supervision and Control of the General Directorate of Supervision, Control and Sanction of the Ministry of Production. The SISESAT Control Center of this General Directorate, through the OROP – BOT, are received and then forwarded to the local satellite provider in Peru (CLS and MEGATRACK), which, once they decode the received frame, they send it to the PRODUCE servers, and then display it in the Control of the SISESAT satellite tracking system.

OROP BOT

It is a computer program that allows the SISESAT message frame (VMS - Vessel Monitoring System) of national vessels registered in the SPRFMO, and that navigate outside the Peruvian maritime domain, to be automatically sent from the PRODUCE servers to the monitoring of the SPRFMO (in compliance with the Conservation and Management Measure MCO 06-2018 of the SPRFMO, of which Peru is a member since January 21, 2016).

CMM 03-2019 Bottom fishing in the SPRFMO Convention Area

Definitions

Para 2: Do you engage (or propose to engage) in “bottom fishing” activities in the Convention Area?

YES *If yes, continue to complete the questions in this CMM*

NO *If no, skip to the next CMM*

General provisions

Para 10: Have you prohibited your vessels from participating in bottom fishing activities in the Convention Area, except when in accordance with this CMM together with CMM 03a-2019 (Deepwater species)?

YES

NO

Para 11: Were all of your vessels that engaged in bottom fishing activities duly authorised and listed in the SPRFMO record of Vessels in accordance with CMM 05-2019 (record of Vessels)?

YES

NO

Para 12: Under which provision have you authorised your vessels to engage in bottom fishing activities in the Convention Area? *(mark all that apply)*

- **Para 20(d)(i)** The activity was authorised by the Commission (post 2019), after it considered an SC review of the Member conducted Bottom Fishery Impact Assessment

YES

NO

- **Para 21** You have previously engaged in bottom fishing consistently with the previous iterations of CMM 03 (effective for 2019 and 2020 seasons only)

YES

NO

- The activity has been approved by the Commission under CMM 13-2019 (Exploratory fisheries)

YES

NO

Bottom fishing Management Areas

Para 14: Did all your bottom fishing in the Convention Area occur within the three defined Management Areas and in accordance with the terms of this CMM?

YES

NO

Para 16: Did you ensure that all your vessels complied with the following 3 provisions?

a) Bottom trawling shall only occur in a bottom trawl Management Area;

YES

NO

b) Midwater trawling shall only occur in a midwater trawl Management Area or a bottom trawl Management Area;

YES

NO

c) Bottom lining shall only occur in a Management Area.

YES

NO

Marine mammals, seabirds, reptiles and other species of concern

Para 18: Did you implement seabird mitigation measures in accordance with CMM 09-2017 (Seabirds)?

YES

NO

Did you report annually on bycatch rates and total bycatch estimates in accordance with CMM 02-2018 (Data Standards)?

YES

NO

Did you report annually on bycatch rates and total bycatch estimates in accordance with the Guidelines for Annual National Reports to the SPRFMO Scientific Committee?

YES

NO

Assessment of proposed bottom fishing

Para 20a: During this reporting period, did you submit to the Scientific Committee a Bottom Fishery Impact Assessment that met the appropriate standard (SPRFMO BFIAS) and included consideration of cumulative impacts and proposed mitigation measures to prevent such impacts?

YES

NO

Para 22: Have you ensured that a proposed assessment meeting the requirements contained in paragraph 20(a) is submitted to the Scientific Committee and Commission at least every 3 years, and also when a substantial change in the fishery has occurred such that it is likely that the risk or impact of the fishery may have changed?

YES

NO

Encounters with potential VMEs

Para 28: Did any of your vessels trigger the VME encounter protocols by encountering VME indicator taxa above the specified thresholds?

YES *If yes, continue to answer questions below*

- How many Encounters occurred during this reporting period?

Enter relevant details here

- In each case, did the vessel cease bottom fishing immediately within the encounter area?

YES

NO

- In each case, did the vessel report the encounter immediately in accordance with the Guidelines for the preparation and submission of notifications of encounters with potential VMEs, contained in Annex 7?

YES

NO

NO

Para 31: Did you ensure that your vessels have not bottom fished in any officially notified Encounter Area pending any related Commission decision?

YES

NO

Para 32: During this reporting period, did you submit any detailed descriptions of VME Encounters to the Scientific Committee (including suggested management actions) as a result of a temporary suspension pursuant to paragraph 28?

YES

NO

Para 35: During this reporting period, did you submit an annual report of all benthic bycatch data from your vessels, consistent with CMM 02-2018 (Data Standards)?

YES

NO

Monitoring and control of bottom fishing activities

Para 39a: Did you ensure that your vessels participating in bottom fishing:

- are equipped and configured so that they can comply with all relevant SPRFMO CMMs?

YES

NO

- act in accordance with CMM 06-2018 (Commission VMS), polling once every 30 minutes for the duration of the trip?

YES

NO

- report tow or set start and end position to 1/100th degree resolution - decimal format?

YES

NO

Observer coverage

Para 40: What was your observer coverage level (during this reporting period) for:

- Vessels using bottom trawl?
Enter relevant details here
- Vessels using mid-water trawl gear?
Enter relevant details here
- Vessels using bottom line gear (expressed as the percentage of observed hooks)?
Enter relevant details here

CMM 03a-2019 Deepwater Species in the SPRFMO Convention Area

Interpretation

Para 2: Do you engage in “bottom fishing” activities in the Convention Area?

YES *If yes, complete the table below*

NO *If no, skip to the next CMM*

Table 5: CMM 03a-2019 (Deepwater Species): Catch Limits and Monitoring (Paras 10, 13, 15 & 17)

Species - Area	2019 Catch Limit	2019 Catch Limit after applying transfers	Provisional 2019 Catch Total
Orange Roughy – Tasman Sea			
Orange Roughy – Louisville Ridge			
Orange Roughy – Westpac Bank			
Orange Roughy – South Tasman Rise (HS)			
All other target and non-target species			
Number of Monthly reports provided in this reporting period (Oct – Sept)			

CMM 04-2019 Vessels presumed to have carried out IUU fishing activities in the SPRFMO Area

Information on alleged IUU Fishing activities

Para 2: Did you transmit a list of presumed IUU fishing vessels to the Secretariat?

YES *If yes, continue to answer Para 4*

- **Para 4:** Did you inform the relevant flag State before, or at the same time as, transmitting the list?

YES

NO

Enter relevant details here

NO

Draft IUU Vessel List

Para 5: Were any of your flagged vessels on the draft IUU Vessel List?

YES *If yes, answer the following question (Para 7)*

- **Para 7:** Did you notify vessel owners and inform them about the potential consequences?

YES

NO

Enter relevant details here

NO

IUU Vessel List

Para 15: Were any of your flagged vessels on the final IUU Vessel List?

YES *If yes, answer the questions below*

- Did you notify the vessel owners and inform them about the consequences of inclusion?

YES

NO

- What measures were taken to eliminate these IUU activities and was the Commission informed of these actions?

YES

NO

Enter relevant details here

NO

Para 16: Did enforce any of the measures described in paragraph 16 of CMM 04-2019 (IUU)?
(9 bullet points, beginning with withdrawal of fishing authorisations ...)

YES *If yes, elaborate below*

NO

Enter relevant details here

Modification of the IUU Vessel List

Para 21: Did you request the removal of one of your vessels from the IUU Vessel List, during the most recent intersessional period?

YES *If yes, elaborate below*

NO

Enter relevant details here

Action against nationals involved in IUU fishing activities

Para 25: Did you take any measures against your nationals that have been identified as engaged in, responsible for, benefiting from, or supporting the activities of any vessel engaged in IUU fishing activities in the SPRFMO Convention Area?

YES *If yes, elaborate below*

NO

Enter relevant details here

Para 28: Did you take any other actions and/or measures in accordance with this CMM that have not previously been reported in this section?

YES *If yes, elaborate below*

NO

Enter relevant details here

Information indicating a change of circumstances of vessels appearing on the current IUU Vessel List

Para 29: Did you transmit information which indicated a change of name and/or an International Radio Call Sign (IRCS) of a vessel appearing on the SPRFMO IUU Vessel List to the Secretariat during this reporting period?

YES *If yes, elaborate below*

NO

Enter relevant details here

CMM 05-2019 Commission Record of Vessels authorised to fish in the Convention Area

Para 2: Describe how you take into account the vessel and operator compliance history when considering whether or not to authorise a particular fishing vessel

Within the framework of conservation and management measures adopted by the SPRFMO, Peru created the “Register of Fishing Vessels engaged in fishing activities on the high seas” by Supreme Decree N° 002-2015-PRODUCE that entered into force on March 6, 2015, and confirmed our commitment to combat illegal fishing.

This rule allows to establish measures to authorize, accredit, monitor and control fishing activities of Peruvian flag vessels on the high seas, and help to ensure the orderly development of fisheries based on the application of principles of responsible fishing, in accordance with national legislation and international law.

In order for a vessel to be enrol in the “Register of Fishing Vessels engaged in fishing activities on the high seas”, it should state that it has not been sanctioned by performing illegally fishing in the area of the high seas or violating national or international conservation and organization established for the respective fishing areas, corresponded to organizations or relevant regional or sub regional arrangements.

Notwithstanding, if the application for registration was associated with a vessel registered previously in another state or states and the sanctions for breach of international conservation and management is proved, the applicant shall convincingly demonstrate that the ownership or lease of the vessel has changed, and that the previous owner has no legal, beneficial or financial interest of the fishing vessel, or has no control over it.

The format was adopted in the same rule, for vessels applying for registration in the “Register of Fishing Vessels engaged in fishing activities on the high seas” where all data, specified in Annex 1 of the CMM 05-2016, is required.

Para 3: Describe the measures you have taken to ensure that you are able to take effective enforcement actions against the owners of vessels flying your flag should the need arise

Peru is able to take effective actions against owners of the vessels, through application of the Rules of inspections and Fisheries and Aquaculture Sanctions, adopted by Supreme Decree N° 017-2017-PRODUCE, which defines the offenses that fishing vessels could commit. In addition, by Supreme Decree N° 002-2015-PRODUCE, “Register of Fishing Vessels engaged in fishing activities offshore” Peru can sanction vessels that violate international conservation and management measures established by organizations or by regional or sub regional arrangements.

Para 4: Do you maintain your own register of fishing vessels for the SPRFMO Area?

YES If yes, answer the following question (Para 5)

Para 5: Does it contain all the necessary information?

(as described in Annex 1 of CMM 05-2010 [Record of Vessels]).

YES

NO

NO

Table 6: Vessel data submission summary (Para’s 6, 7, 8)

Current number of vessels authorised to fish in the SPRFMO	Nº of new vessels authorised within reporting period	Nº of revoked, relinquished or invalid authorisations within reporting period	Authorisation details submitted to Secretariat?	Nº. of Active fishing vessels	Nº of vessels only engaged in Transhipments(s)
98			YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>		

Information to June 2019.

CMM 06-2018 VMS in the SPRFMO Convention Area

Definitions

Para 2: Did any of your vessels fish in the SPRFMO Area during the reporting period?

YES *If yes, continue to answer the following questions on this CMM*

NO *If no, skip to the next CMM*

Applicability

Para 4: Are you ensuring that your vessels that are on the SPRFMO Record of Vessels are continuously reporting their movements and activities to your FMC and the Commission VMS (either via your FMC or simultaneously to both the Secretariat and your FMC) in order to support the implementation of SPRFMO CMMs?

YES

NO

Enter relevant details here

Nature and Specification of the Commission VMS

Para 9: What means of automatically reporting VMS data have you chosen for your flagged vessels?

(a) To the Secretariat via your FMC; or

(b) Simultaneously to both the Secretariat and your FMC

Para 10: If you have ticked option (a) above, then does your FMC automatically forward VMS reports to the Secretariat at intervals of not less than 1 hour?

YES

NO

Para 11: Do all your flagged vessels that are required to report to the Commission VMS use a functioning ALC that complies with the Commission's Minimum Standards as specified in Annex 1, CMM 06-2018?

YES

NO

Procedure for Manual Reporting

Para 13: Did you receive any VMS data from the Commission VMS during the assessed period?

YES *If yes, answer the question below*

- Did you adhere with all the Security and Confidentiality requirements specified in Annex 2 of CMM 06-2018?

YES

NO *If no, please elaborate below*

Enter relevant details here

NO

Measures to Prevent Tampering with ALCs

Para 14: Did any of your vessels experience a failure of automatic VMS reporting during the assessed period?

YES *If yes, answer the question below*

- Was the manual reporting procedure specified in Annex 3, of CMM 06-2018 applied?
 - YES
 - NO
- Have any of your vessels failed to re-establish automatic reporting within 60 days after the commencement of manual reporting?
 - YES *If yes, please answer the questions below*
 - NO *If no, please skip to the next question (Par 15 and 16)*
 - Were they ordered to cease fishing and return immediately to port
 - YES
 - NO *If no, please elaborate below*
- Please provide the names of any vessels that failed to re-establish automatic reporting within 60 days.

Enter relevant details here

NO

Para 15 and 16: Do you have reasons to suspect that any SPRFMO reporting ALC does not meet the requirements specified in Annex 1 of CMM 06-2018?

YES *If yes, answer the question below*

- Did you notify the Secretariat (and the Member or CNCP concerned)?
 - YES *If yes, please answer the questions below*
 - NO
- Did you also communicate the actions taken (including any investigative outcomes) to the Commission?
 - YES
 - NO

NO

Para 17: Have you ensured that vessels flying your flag install and use ALCs which fulfil the conditions specified in Annex 4 of CMM 06-2018?

YES

NO

Para 18: Please list the methods used to prevent tampering

Relevant details: *The equipment on board the vessels that transmit the positions are properly sealed.*

Para 19: Please provide the following information for each vessel flying your flag and reporting to the SPRFMO VMS (note that it is perfectly acceptable to provide a separate file)

Use and Release of VMS Data not Requiring the Consent of the Member or CNCP

Para 24: Did you receive any VMS data from the Commission VMS for the purposes of planning or conducting active surveillance operations and/or inspections at sea?

YES *If yes, answer the question below*

- Did you delete VMS data within 24 hours of the conclusion of the operation?

YES

NO *If no, please answer the questions below*

- If the VMS data was retained for longer than 24 hours, have you informed the Secretariat about the purpose and expected timing of the additional period of data retention?

Enter relevant details here

NO

Para 26: Did you receive any VMS data from the Commission VMS for the purpose of conducting active surveillance operations and/or inspections at sea?

YES *If yes, answer the question below*

- Was the Secretariat provided with a report that included the name of the vessel or aircraft on active surveillance and/or inspection activity?

YES

NO

NO

Para 27: Did you request VMS data for supporting search and rescue activities undertaken by a competent MRCC?

YES *If yes, answer the question below*

- Did you ensure that the data was only used for that purpose?

YES

NO

NO

CMM 07-2019 Minimum Standards of Inspection in Port

Points of Contact

Para 5: Have you transmitted the names(s) and contact information for your Points of Contact to the Secretariat?

YES

NO

Scope

Para 1: Are your ports expected to receive SPRFMO-managed species?

YES *If yes, continue to answer the following questions on this CMM*

NO *If no, skip to the next CMM*

Table 7: Implementation of Port Standards (Para's 9, 11, 13, 15, 17, 19)

Designated port list provided to Secretariat?	Nº of foreign fishing vessels ¹ seeking to use port services	Nº of foreign fishing vessels denied port services	Nº of inspections	Percentage of foreign landings /transhipments inspected
YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>	31	0	31	100%

Designated Ports

Para 8: Do you have sufficient capacity to conduct inspections in every designated port?

YES

NO

Relevant details: *The General Directorate of Supervision, Supervision and Sanction has 198 inspectors to verify the activities of transfer or discharge of vessels operating in the convention area.*

Prior Notification

Para 11: Do you require foreign fishing vessels to provide information prior to any landing or port transhipment?

YES *If yes, answer the questions below*

- Does that information comply with paragraph 11 of CMM 07-2017 (Port Inspection)?

YES

NO *If no, please answer the question below*

- Did you, in your capacity as a port State, promptly inform the Secretariat of any request for port services made under this CMM?

YES

NO

Port services information was sent in the format established in Annex 3 of CMM07-2019

NO

Para 12: Is the notification period for a foreign fishing vessel's port request different than 48 hours?

YES *If yes, elaborate below*

NO

¹ Limited to foreign fishing vessels carrying SPRFMO species caught within the SPRFMO Area

Relevant details: For transshipment, D.S. No. 016-2016-PRODUCE establishes the communication of at least three (3) working days to the date scheduled for said activity.

Port Inspections

Para 16a): Did you receive any requests from other Members, CNCs or relevant RFMOs to inspect a particular vessel?

YES If yes, elaborate below

NO

Enter relevant details here

Inspection Procedure

Para 20: Did you encounter any difficulties with the inspection procedures described in paragraphs 20-25 of CMM 07-2019 (Port Inspection)?

YES If yes, elaborate below

NO

Relevant details: Inspections of foreign fishing vessels are carried out within the framework of Supreme Decree N° 016-2016-PRODUCE.

Procedure in the Event of Infringements

Para 26: Did any of your inspections discover evidence that a foreign fishing vessel has committed a breach of the SPRFMO CMMs?

YES If yes, elaborate below

NO

Enter relevant details here

Para 27: Did any of your inspections discover a breach that you (as a port State) took action against in accordance with your domestic laws?

YES If yes, elaborate below

NO

Relevant details: A total of 31 reports were sent. From this total, 03 reports infractions were submitted to the national regulations.

Para 28: Did you, as a result of a port inspection, refer any alleged infringements to the relevant flag State so that they may promptly investigate?

YES If yes, elaborate below

NO

Para 29: Were you authorised by another flag State to undertake an investigation in relation to alleged infringements detected as a result of your port inspection?

YES If yes, elaborate below

NO

Enter relevant details here

Requirements of developing Members and CNCs

Para 31: Have you provided (or received) any assistance as described under Paragraph 28 of CMM 07-2017 (Port Inspection)? (Being the development of capacity, facilitation of participation and assessment of requirements for developing Members and CNCPs)

YES

NO

Enter relevant details here

CMM 08-2019 Gillnets in the SPRFMO Convention Area

Gillnets

Para 1: Have you prohibited your vessels from using large scale pelagic driftnets and all deepwater gillnets in the SPRFMO Convention Area?

YES

NO

Enter relevant details here

Para 2: Have any of your vessels transited the Area while carrying gillnets?

YES *If yes, answer the questions below*

- **Para 2a):** Was 36 hours advance notice given?
YES
NO
Partial
- **Para 2b):** Did the vessels operate a VMS?
YES
NO
Partial
- **Para 2c):** Were VMS reports submitted?
YES
NO
Partial
- **Para 2d):** Were any Gillnets lost and/or abandoned overboard?
YES
NO

Enter relevant details here

NO

CMM 09-2017 Minimising bycatch of seabirds in the SPRFMO Convention Area

General Provisions

Para 1 and 2: Are your vessels required to implement appropriate seabird mitigation measures while fishing in the Convention Area?

YES *If yes, continue to answer the following questions on this CMM*

NO *If no, skip to the next CMM*

Annex 1, para 1b) ii: Have you maintained and temporally appropriate observer coverage for the previous 5 consecutive years at levels greater than 10% and recorded a seabird mortality rate less than 0.01 birds/1000 hooks?

YES *If yes, continue to answer questions below*

- Are any of your demersal **longline** vessels only required to apply one of the three specified mitigation measures (i.e. line weighting, bird scaring, setting at night)?

YES

NO

- During the recent reporting period have you maintained a minimum of 10% observer coverage over your demersal **longline** fleet?

YES

NO

NO

Annex 1 para 2: Have any of your demersal **longline** vessels exceeded a mortality rate of 0.01 birds/1000 hooks?

YES *If yes, answer the question below*

Annex 1, para 2a): Please list those vessels and state if, after the mortality event(s), whether these vessels applied at least one additional measure?

Enter relevant details here

NO

Annex 2, para 2: Have you maintained 100% observer coverage for the previous 5 consecutive years with less than 1 recorded mortality per vessel per year within your SPRFMO **trawl** fisheries?

YES *If yes, continue to answer questions below*

- Have you exempted any of your vessels from applying the specified mitigation measures (bird scaring lines, responsible discharge management, net cleaning, surface time minimisation)?

YES *If yes, please list the vessel(s) and identify the fisheries concerned*

Enter relevant details here

NO

- During the recent reporting period did any mortality events occur?

YES *If yes, please list the vessels concerned and stipulate whether, after the mortality, these vessels applied appropriate mitigation measures*

Enter relevant details here

NO

NO

Para 3: Do you have any **trawlers** which are exempt from applying seabird mitigation measures because they discharge no biological material?

YES *If yes, please list those vessels and stipulate when these vessel exemptions were last reviewed*

Enter relevant details here

NO

Para 7: Do you require your observers to record data on seabird interactions?

YES *If yes, continue to answer the questions below*

- **Para 8:** Are the records in accordance with CMM 02-2018 (Data Standards)?
 - YES
 - NO
- Have you reported data on seabird observations within your annual national report?
 - YES
 - NO

NO

Table 8: Seabird mitigation measures in Demersal Longline (Para 9 & Annex 1 para 1)

Biological discharge during shooting/hauling prohibited?	List of Seabird mitigation measures used in SPRFMO Area?	Observer coverage level ¹ ?	Nº of Seabird interactions	Approx. Seabird mortality rate (per 1000 hooks observed)
YES <input type="checkbox"/> NO <input type="checkbox"/>				

Table 9: Seabird mitigation measures in Trawl Fisheries (Para's 3,9 & Annex 2 para 1, 2)

Nº of vessels that do not discharge Biological material?	No. of vessels discharging Biological material?	List of seabird mitigation measures used in SPRFMO Area	Observer coverage level ²	Nº of seabird interactions	Approx. seabird mortality rate (per tow observed)
None operated in 2018-2019	None operated in 2018-2019	Scaring lines	100		

¹ Provided as a percentage of number of hooks, for the current calendar year

² Provided as a percentage of number of tows for the current calendar year

CMM 10-2019 Compliance Monitoring Scheme

Purpose

Para 1b: Please identify any areas in which you feel technical assistance or capacity building may be needed to assist Members and CNCs to achieve compliance.

Relevant details: *Training for strengthening inspection in Port according to the MCO 07-2019.*

Para 1c: Please identify any aspects of CMMs which you feel may require improvement or amendment to facilitate or advance their implementation.

Enter relevant details here

CMM 11-2015 Boarding & Inspection Procedures

Para 1: The Commission's procedures on at sea inspection in the SPRFMO Convention Area shall be those contained in Articles 21 and 22 of the [1995 Agreement](#) (*Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks*).

Para 2: Are any of your flagged vessels fishing in the SPRFMO Area?

YES *If yes, please answer the questions below*

- Have you designated, and publicised through SPRFMO, an appropriate authority to receive Boarding and Inspection related notifications as described in Article 21.4 of the 1995 Agreement?

YES

NO

- Have you ensured that vessel masters comply with stipulations (a) through to (f) under Article 22.3 of the 1995 Agreement?

YES

NO

NO

Para 2: Were any of the vessels flying your flag inspected by a SPRFMO Contracting Party?

YES *If yes, please answer the questions below*

- Were there any cases in which there were clear grounds for believing that a vessel has engaged in any activity contrary to the CMMs of the SPRFMO?

YES *If yes, please answer the question below*

- If yes, how were the procedures described under Article 21.6 and 21.12 addressed? Did you encounter any problems?

YES NO

Enter relevant details here

NO

NO

Article 21.3: Have you conducted any at-sea inspections during the recent reporting period?

YES *If yes, please answer the questions below*

- **Article 21.4:** Have you informed the SPRFMO Secretariat of the form of identification issued to your duly authorised inspectors?

YES NO

- **Article 21.4:** Are your vessels used for boarding and inspection clearly marked and identifiable as being on government service?

YES NO

- How do you ensure that your inspectors observe all provisions under Articles 21.10 and 22.1 of the 1995 Agreement?

Enter relevant details here

- How many at-sea inspections did you conduct?

Enter relevant details here

- **Article 21.5:** Following a boarding and inspection, have you had clear grounds for believing that a vessel has engaged in any activity contrary to the CMMs of the SPRFMO?

YES NO *If yes, please list all cases below and answer the following 2 questions*

Enter relevant details here

- **Article 21.8:** In any of these cases, did you have clear grounds for believing that a vessel has committed a serious violation in accordance with Article 21.11 of the 1995 Agreement?

YES NO

Enter relevant details here

- **Article 21.9:** Did you secure evidence and promptly notify the flag State of the alleged violation and the results of any further investigation?

YES NO

- Did you encounter any problems?

YES NO *If yes, please provide details below*

Enter relevant details here

NO

CMM 12-2018 Transhipment and Other Transfer Activities

Have any of your vessels conducted transhipments or other transfer activities during the reporting period?

YES *If yes, complete the following tables and questions on this CMM*

NO *If no, skip to the next CMM*

General Provisions for all Vessels Engaged in Fishing in the Convention Area

Paras 2 and 3: Were all transhipments and/or other transfer activities conducted between authorised vessels (i.e. on the Commission Record of Vessels at the time of the activity)?

YES

NO

Table 10: Transhipments of *T. murphyi* caught in the Convention Area (Para’s 4, 5, 8)

Nº of transhipments in which your vessels unloaded <i>T. murphyi</i> catch	Nº of transhipments in which your vessels received <i>T. murphyi</i> catch	How many of the <i>T. murphyi</i> transhipments were observed?

Please list the vessels that conducted transhipments of *T. murphyi* during the reporting period

Enter relevant details here

Table 11: Transhipments of demersal species¹ caught in the Convention Area (Para’s 4, 5, 8)

Nº of transhipments in which your vessels unloaded demersal catch	Nº of transhipments in which your vessels received demersal catch	How many of the demersal transhipments were observed?

Please list the vessels that conducted transhipments of *demersal species* during the reporting period

Enter relevant details here

¹ Demersal species generally live on or near the ocean floor. Jumbo flying squid in SPRFMO is not considered a demersal species.

CMM 13-2019 New & Exploratory Fisheries

Interpretation

Para 4: Are any of your vessels currently permitted to fish in SPRFMO exploratory fisheries?

YES

NO

Requirements for Exploratory Fisheries

Para 5: Are you seeking to permit a vessel that flies your flag to fish in an exploratory fishery?

YES *If yes, answer the following questions*

- **Para 5a:** Have you submitted an application to the Commission in respect of these activities?

YES NO

- **Para 5b:** If have you submitted a Fisheries Operation Plan to the Scientific Committee in respect of these activities?

YES NO

NO

CMM 14a-2016 Exploratory Fishing for Toothfish by New Zealand-Flagged Vessels in the SPRFMO Convention Area

(The obligations listed under this CMM are only applicable to New Zealand;
all other Members and CNCPs can skip to the next CMM).

Details and Specification of Exploratory Fishing Activities

Para 6: How many exploratory toothfish fishing trips were completed during 2019?

Enter relevant details here

NIL *If "nil" then skip to the next CMM*

Para 5: Was all of the exploratory toothfish fishing conducted within the four exploratory strata (refer L, M, N and O in Table 1)?

YES

NO

Table 12: Total Allowable Catch (Paras 8, 9a, 9f and 9i)

Vessel	Exploratory fishing Strata	Post spawning Catch (Aug - Oct)	Non-post spawning Catch
<i>San Aspiring</i>	L		
	M		
	N		
	O		
<i>Janas</i>	L		
	M		
	N		
	O		

Table 13: Total Allowable Catch (Paras 9a and 9b)

Exploratory fishing Strata	Total number of Sets	Number of Clusters
L		
M		
N		
O		

Table 14: Management Measures (Para's 9, 17 and 19)

Protocol	Value	Reference
Number of clusters composed of more than 5 lines		Para 9c
Number of clusters within 10nm of another cluster? (within the same voyage or fishing season)		Para 9d
Number of lines beginning, or ending, deeper than 2,200 m?		Para 9e
Number of lines with more than 6,900 hooks?		Para 17a)ii
Number of clusters with more than 17,250 hooks?		Para 17a)iii
Number of tooth fish tagged		Para 17b
Minimum overlap tagging statistic		Para 17b
Number of occasions where over 250 kg of Deepwater sharks (class Chondrichthyes) were caught within a cluster of lines?		Para 19

Marine Mammals, Seabirds, Turtles, and other Species of Concern

Para 22: Was there any occasion when any of the mitigation methods described in paragraphs 22a) to g) were not employed as appropriate?

YES *If yes, describe below*
Enter relevant details here

NO

Table 15: Marine Mammals, Seabirds, Turtles, and other Species of Concern (Para 23)

Paragraph 23 information	Value	Reference
Number of Seabird/Marine mammal abundance counts taken during setting		Para 23a
Number of Seabird/Marine mammal abundance counts taken during setting		Para 23a
% of hooks hauled that were observed		Para 23c
Number of captures of Marine Mammals		Para 23e
Number of captures of Seabirds		Para 23e
Number of captures of Turtles		Para 23e
Number of captures of other Species of Concern		Para 23e

Monitoring

Para 25: Was a New Zealand government observer onboard during the exploratory fishing?

YES *If yes, answer the following question*

- Was there a dedicated assistant available?
 YES NO

NO

Para 26: Has recorded footage of each voyage showing all hauled lines and hooks been provided to the New Zealand Ministry for Primary Industries?

YES

NO

CMM 14b-2019 Exploratory Potting Fishery in the SPRFMO Convention Area

(The obligations listed under this CMM are only applicable to the Cook Islands;
all other Members and CNCPs can skip to the next CMM).

Objectives

Para 1: Did your vessels conduct exploratory pot fishing for lobster or crab during the reporting period?
 YES
 NO *If “no” skip down to para 27*

Details and Specification of Exploratory Fishing Activities

Para 5: Did all the fishing use the bottom potting method?
 YES *If yes, answer the following question*

- Was it all conducted within the box specified in Table 1¹ of this measure
 - YES
 - NO

NO

Table 16: Details and Specification of Exploratory Fishing Activities (Para 6)

Paragraph 6 information	Value	Reference
Number of research trips conducted during the period July 2018 – June 2019		Para 6a
Number of research trips conducted during the period July 2019 – June 2020		Para 6b
Number of fishing days per trip (maximum)		Para 6c
Maximum number of lines set in a single day		Para 6c
Maximum number of lines hauled in a single day		Para 6c
Maximum number of traps per line		Para 6c
Total number of Seamounts (or other features) fished		Para 6c

Para 7: Did any fishing occur during the July - September period?
 YES
 NO

Para 8: What was the total tonnage of lobster and crab (combined) caught during the first fishing year (July 2018 – June 2019)?
Enter relevant details here

Para 9: What was the current tonnage of lobster and crab (combined) caught during the second fishing year (July 2019 – June 2020)?
Enter relevant details here

Para 12a: At any time during the exploratory fishing did the stock indicators show sustainability concerns?
 YES
 NO

¹ Table 1: boxed positions for the exploratory fishing

Exploratory area	latitude	longitude
Foundation	31°00 S	100°00 W
Sea mount chain	40°00 S	134°00 W

Authorised Vessels

Para 15: Which vessel(s) were authorised and undertook the exploratory potting?

Enter relevant details here

Marine mammals, seabirds, turtles, and other species of concern

Para 21: Were all the mitigation methods specified in paragraph 21 implemented during the exploratory fishing?

YES

NO

Para 22: Was the information described in paragraph 22 relating to marine mammals, seabirds, turtles, and other species of concern collected?

YES

NO

Monitoring & Data Collection

Para 24: Was there a Cook Islands Government observer (and a dedicated assistant) on board the vessel during the exploratory fishing?

YES

NO

Para 25: Was there a video monitoring and recording system installed and was the footage provided to the Cook Islands Government at the end of each voyage?

YES

NO

Para 27: Did the Cook Islands present a full and comprehensive amended exploratory fishing proposal to the 7th meeting of the SPRFMO Scientific Committee as described in para 27 (including a–d)?

YES

NO

CMM 14c-2016 Exploratory Fishing for Toothfish by European Union Vessels in the SPRFMO Convention Area

(The obligations listed under this CMM are only applicable to the European Union; all other Members and CNCPs can skip to the next CMM).

Duration, catch and effort limits

Para 6: How many exploratory toothfish fishing trips were during completed 2019?
Enter relevant details here
 NIL If "nil" then skip to the next CMM

Para 5: Was all of the exploratory toothfish fishing conducted within the five research blocks (refer A, B, C, D and E in Table 1)?
 YES
 NO

Table 17: Duration, catch and effort limits

Limit	Value	Reference
Length of trip		Para 6
Greenweight catch of Toothfish (tonnes)		Para 7
Maximum hooks per single set		Para 8
Maximum sets in a single research block		Para 8
Total number of sets within the trip		Para 8
Minimum depth fished		Para 10
Maximum depth fished		Para 10

Management Measures

Para 12: Were all hooks uniquely marked indicating the vessel and fishing campaign?
 YES
 NO

Authorised Vessels

Para 13: What was the name of the vessel that was authorised to undertake fishing pursuant to this CMM?
Enter relevant details here

Table 18: Data collection (Para 17)

Limit	Value	Reference
Number of tooth fish tagged		Para 17
Overlap tagging statistic		Para 17

Marine Mammals, Seabirds, Turtles, and other Species of Concern

Para 19: Was there any occasion when any of the mitigation methods described in paragraphs 19a) to m) were not employed as appropriate?
 YES If yes, please describe

Protocol	Value	Reference
Was the trigger level of 0.01 birds per/1000 hooks exceeded?	YES <input type="checkbox"/> NO <input type="checkbox"/>	Para 19g
Were any turtles sighted in the area?	YES <input type="checkbox"/> NO <input type="checkbox"/>	Para 19h
Was there any seal or cetacean bycatch?	YES <input type="checkbox"/> NO <input type="checkbox"/>	Para 19i
Was the move-on provision relating to sharks triggered?	YES <input type="checkbox"/> NO <input type="checkbox"/>	Para 19j
Was a move-on provision relating to skates and rays triggered?	YES <input type="checkbox"/> NO <input type="checkbox"/>	Para 19k, 19l
Was a move-on provision relating to <i>Macrourus</i> spp. triggered?	YES <input type="checkbox"/> NO <input type="checkbox"/>	Para 19m

Table 20: Data collection for marine mammals, seabirds, turtles, and other species of concern (Para 20)

Paragraph 20 information	Value	Reference
Number of Seabird/Marine mammal abundance counts taken during start of an event		Para 20a
Number of Seabird/Marine mammal abundance counts taken during middle of an event		Para 20a
Number of Seabird/Marine mammal abundance counts taken during end of an event		Para 20a
% of hooks hauled that were observed for marine mammal, seabird and turtle interactions		Para 20b
Number of captures of Marine Mammals		Para 20c
Number of captures of Seabirds (excluding collisions)		Para 20c
Number of captures of Turtles		Para 20c
Number of captures of other Species of Concern		Para 20c
Number of Seabirds collisions		Para 20c
Number of Seabirds released alive		Para 20c
Number of dead birds retained		Para 20d

VME

Para 22: Was evidence of a VME is encountered during fishing activities?

YES

NO

Monitoring

Para 23: Was a scientific observer onboard during the exploratory fishing?

YES *If yes, please answer the question below*

- Was there a dedicated assistant available?
 - YES NO

NO

CMM 15-2016 Vessels without Nationality

Para 3: During the reporting period did you take any actions, in accordance with international law, against vessels without nationality? (e.g. by prohibiting landing, transshipment or access to port services).

YES *If yes, please provide additional details*
Enter relevant details here

NO

CMM 16-2019 the SPRFMO Observer Programme

Evaluation of observer programmes

Para 24: Did you pursue accreditation under the SPRFMO OP during the recent reporting period?

YES *If yes, please indicate when you intend to begin the accreditation process?*

within the forthcoming year

within the 2 forthcoming years

within the forthcoming 2-5 years

NO *We have no plans to deploy observers in the SPRFMO Area.*

General Rules

Para 2: Did you deploy any observers in order to facilitate the collection of verified scientific data and additional information related to fishing activities in the Convention Area?

YES

NO *If no, skip to the next CMM*

Para 5: Have you ensured that that observers from your national observer programmes perform the duties described in Annex 1 of the CMM?

YES

NO

Para 6: Have you ensured that your owners and fishing operators, vessel captains, officers and vessels crews:

- respect the rights of observers set out in Annex 1 of the CMM?

YES

NO

- comply with the standards and duties set out in Annex 2 of the CMM?

YES

NO

(Para 7: Will be assessed by the SPRFMO Observer Programme Accreditation Evaluator)

Deployment of Observers

Para 9: Were all the observers you deployed sourced from SPRFMO accredited programmes?

YES

NO

Para 10: Did you deploy any observers on board vessels flagged to another Member or CNCP?

YES *If yes, please list the others Members/CNCPs involved*

Enter relevant details here
