## **Report on the implementation of the Conservation and management Measures for Pelagic Fisheries for the year 2013**

Reporting country: China

Date: 13 January

### **Effort management measures:**

China authorized 13 vessels with a total gross tonnage of 74516 MT to fish Chilean jack mackerel (CJM) in accordance with the level of total GT for China adopted in the 2013 Conservation and Management Measures.

### **Catch management:**

In 2013, there were 2 Chinese vessels actively fishing for CJM in the high seas of SPO and had total catch of 8328.88t, equivalent to 28.7% of the total catch limit allocated to China in accordance with the CMM adopted at the first Commission Meeting.

### **Data collection and reporting:**

China provided verified data collected, such as actively fishing vessels in 2013, authorized fishing vessels in 2014, monthly catch report, quarterly VMS and transshipment data and national report in accordance with the 2013 CMM and SPRFMO data standard.

### **Monitoring (observer' coverage) and control measures:**

China had planned to dispatch observers to the fishing vessels, but due to the transfer of fishing ground of the vessels concerned that resulted in the failure of the observer meeting with the fishing vessel.

All vessels flying the flag of China engaged in the CJM fishery are equipped with a vessel monitoring system.
