

9TH MEETING OF THE SPRFMO COMMISSION

Held virtually, 25 January – 2 February 2021

COMM 9 – Prop 15 Rev2

European Union

☒ Amend

☐ Create

CMM 18-2020 on the Management of the Jumbo Flying Squid Fishery

Submitted by: European Union (EU)

On the basis of the precautionary approach, and following the discussions held at SC8 and CTC8, the revision 1 of the EU proposal establishes a gross tonnage limit at the historical existing level for Members and CNPCs currently fishing for jumbo flying squid in the Convention area. Members and CNPCs currently not fishing for jumbo flying squid in the Convention area are recommended not to expand their fishery.

In accordance with Article 4 of the Convention, Members and CNPCs fishing for jumbo flying squid in areas under their national jurisdiction adjacent to the Convention area shall ensure compatible measures.

Last but not least, it is also proposed that the Commission reviews the GT limit at its annual meeting in 2024, or upon completion of the stock assessment of the jumbo flying squid, whichever occurs first, on the basis of a recommendation from the Scientific Committee.

Rev2 includes the following changes:

- We have removed the reference to the compatibility by the fisheries in national jurisdiction in para 2bis;
- We have replaced ‘encouraged’ with ‘discouraged’ in para 2ter.
- We have now added a table 1 with the max GT authorised and a footnote with a cross reference with para 2ter.

Table 1 contains the maximum active capacity for the fleets fishing in the Convention area from 2014 to 2018 years as presented in paper SC8-SQ01_rev1 at the Scientific Committee.

CMM 18-2021

Conservation and Management Measure on the Management of the Jumbo Flying Squid Fishery (Supersedes CMM18-2020)

The Commission of the South Pacific Regional Fisheries Management Organisation;

NOTING that there has been a substantial increase in catches of and fishing effort for jumbo flying squid in the Convention Area since 1990;

CONCERNED that there is uncertainty concerning the stock status and exploitation rate of jumbo flying squid;

TAKING INTO ACCOUNT the discussions at the 2nd Squid Workshop on 5-6 October 2019, the 7th meeting of the Scientific Committee from 7 to 12 October 2019 and the 8th meeting of the Scientific Committee from 3 to 8 October 2020;

BEARING IN MIND the commitment to apply the precautionary approach and take decisions based on the best scientific and technical information available as set out in Article 3 of the Convention;

RECOGNISING that a primary function of the Commission is to adopt Conservation and Management Measures (CMMs) to achieve the objective of the Convention, including, as appropriate, CMMs for particular fish stocks;

AFFIRMING its commitment to ensure the long-term conservation and sustainable management of jumbo flying squid stocks in accordance with the objective of the Convention;

RECOGNISING the need for effective monitoring and control and surveillance of fishing for jumbo flying squid in the implementation of this measure pending the establishment of monitoring, control and surveillance measures pursuant to Article 27 of the Convention;

RECALLING Articles 20(3) and 20(4) of the Convention;

FURTHER RECALLING the need set out in Article 4 of the Convention to ensure compatibility of CMMs established for the high seas and those adopted for areas under national jurisdiction, and the duty of Contracting Parties to cooperate to this end;

RECALLING also Article 21(1) of the Convention;

ADOPTS the following CMM in accordance with Articles 8 and 21 of the Convention:

General Provisions

1. This CMM applies to all vessels flagged to Members and Cooperating Non-Contracting Parties (CNCs) engaged in or intending to engage in fishing for jumbo flying squid (*Dosidicus gigas*) in the Convention Area.
2. Only fishing vessels duly authorised pursuant to Article 25 of the Convention and in accordance with CMM 05-2019 (Record of Vessels) that are flagged to Members and CNCs shall participate in the fishery for jumbo flying squid in the Convention Area.

Effort Management

2bis Members and CNCPs fishing for jumbo flying squid in the Convention Area shall not expand the total gross tonnage (GT) of their vessels fishing for jumbo flying squid set out in Table I. ~~from the historical existing level¹. Members and CNCPs fishing for jumbo flying squid in areas under national jurisdiction adjacent to the Convention Area shall take compatible measures with the GT limitation applicable in the Convention Area.~~

2ter Members and CNCP not fishing for jumbo flying squid in the Convention Area are discouraged ~~to refrain~~ from expanding the GT of their vessels fishing for jumbo flying squid in the Convention Area.

2quater The Commission at the latest at its 2024 meeting or upon completion of the stock assessment of jumbo flying squid, whichever occurs first, shall review paragraphs 2bis and ter based on a recommendation from the Scientific Committee.

Data Collection and Reporting

3. Each Member and CNCP participating in the jumbo flying squid fishery shall collect, verify, and provide all required data to the Executive Secretary, in accordance with CMM 02-2020 (Data Standards). []

4. The Executive Secretary shall verify the annual catch reports submitted by Members and CNCPs against the submitted data. The Executive Secretary shall inform Members and CNCPs of the outcome of the verification exercise and any possible discrepancies encountered.

Monitoring and Control

5. Members and CNCPs participating in the jumbo flying squid fisheries shall implement a vessel monitoring system (VMS) in accordance with CMM 06-2020 (VMS) and other relevant CMMs adopted by the Commission.

6. Each Member and CNCP participating in the jumbo flying squid fishery shall provide the Executive Secretary a list of vessels² they have authorised to fish in the fishery in accordance with Article 25 of the Convention and CMM 05-2019 (Record of Vessels) and other relevant CMMs adopted by the Commission. They shall also notify the Executive Secretary of the vessels that have actively fished or engaged in transshipment in the Convention Area within 30 days of the end of each year. The Executive Secretary shall maintain lists of the vessels so notified and will make them available on the SPRFMO website.

7. The Executive Secretary shall report annually to the Commission on the list of vessels having actively fished or been engaged in transshipment in the Convention Area during the previous year using data provided under CMM 02-2020 (Data Standards).

Scientific Committee Reports

8. Members and CNCPs shall provide their annual reports, in accordance with the existing guidelines for such reports, in advance of the 2021 Scientific Committee meeting. Members and CNCPs shall also provide

¹ The maximum historical GT record available for each Member or CNCP on 31 January 2021.

² Fishing vessels as defined in Article 1 (1)(h) of the Convention.

observer data for the 2021 fishing season to the Scientific Committee to the maximum extent possible. The reports shall be submitted to the Executive Secretary at least one month before the 2021 Scientific Committee meeting in order to ensure that the Scientific Committee has an adequate opportunity to consider the reports in its deliberations. Members and CNCPs should notify the Executive Secretary in the event they will not be submitting an annual report together with the reasons for not doing so.

9. The information collected under paragraphs 3 and 8, and any stock assessments and research in respect of the jumbo flying squid fishery shall be submitted for review to the Scientific Committee. The Scientific Committee will conduct the necessary analysis and assessment, in accordance with its SC Multi-annual workplan agreed by the Commission, in order to provide advice on stock status.

Observer Coverage

10. Members and CNCPs participating in the jumbo flying squid fishery shall ensure a minimum observer coverage of 5 full time at sea observers or 5% of fishing days for vessels flying their flag, and ensure that such observers collect and report data as described in CMM 02-2020 (Data Standards). The Scientific Committee shall review the minimum observer coverage, at the latest at its 2023 meeting and provide advice to the Commission, including in relation to the specificities of different fleet segments, including those up to 15 metres in length.

Special Requirements of Developing States

11. In recognition of the special requirements of developing States, in particular small island developing States and territories and possessions in the region, Members and CNCPs are urged to provide financial, scientific and technical assistance, where available, to enhance the ability of those developing States and territories and possessions to implement this CMM.

Review

12. This CMM shall enter into force on 1 January 2021 except for paragraphs 2 bis and ter which shall enter into force on 1 June 2021.

13. This CMM shall be reviewed by the Commission in 2024. The review shall take into account the latest advice of the Scientific Committee and the Compliance and Technical Committee.

Table 1: Tonnage referred to in paragraph 2bis³

China	Korea	Chinese Taipei	Grand Total
425 245	13 837	12 871	451 953

³ The table does not include the tonnage of Members and CNPCs referred to in paragraph 2ter who may expand the GT of their vessels fishing for jumbo flying squid in the Convention Area.
