## COMM 11 – Report ANNEX 7h

### Conservation and Management Measure 12-2023 Transshipment

*(COMM 11 – Prop 10\_rev5)*

ADOPTED

---

CMM 12-2023~~0~~

**Conservation and Management Measure for the regulation of  
Transshipment and Other Transfer Activities**

*(Supersedes CMM 12-20~~2018~~)*

**The Commission of the South Pacific Regional Fisheries Management Organisation;**

*RECALLING* that Article 1(1)(o) of the Convention defines “transshipment” as the unloading of all or any of the fishery resources or fishery resource products derived from fishing in the Convention Area on board a fishing vessel to another fishing vessel either at sea or in port;

*RECOGNISING* that transshipment at sea is a common global practice, but that unregulated and unreported transshipment of catches of fishery resources, in particular on the high seas, contributes to distorted reporting of catches of such stocks and supports illegal, unreported and unregulated (IUU) fishing in the Convention Area;

*RECOGNISING* the importance of adequately regulating, monitoring and controlling transshipment at sea to contribute to combating IUU fishing activities, and that States should take all necessary measures to ensure that vessels flying their flag do not engage in transshipment of fish caught by fishing vessels engaged in IUU fishing through adequate regulation, monitoring and control of such transshipment of fish;

*NOTING* that Article 18 (3)(f) and (h) of the *Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks* requires flag States to adopt measures to regulate transshipment on the high seas to ensure that the effectiveness of conservation and management measures is not undermined, and port States to adopt regulations to prohibit landings and transshipments where the catch has been taken in a manner which undermines the effectiveness of regional conservation and management measures on the high seas;

*RECALLING* Articles 25(1)(d), 26(2)(a) and 27(1)(c) of the Convention, which prescribe, *inter alia*, that Members of the Commission shall take all necessary measures to ensure that fishing vessels flying its flag land or tranship fishery resources caught in the Convention Area in accordance with standards and procedures adopted by the Commission;

*ADOPTS* the following Conservation and Management Measure (CMM) in accordance with Article 8 of the Convention:

**General Provisions for All Vessels Engaged in Fishing in the Convention Area**

1. For the purposes of this CMM, “competent authorities” means the authorities of the Member or CNCP under whose flag the vessel is operating.

The competent authorities of the observed vessel shall submit the observer ~~data of the~~ transhipment logsheet to the Secretariat, no later than 15 days from debarkation of the observer, or in the case of the ~~jumbo flying squid fishery,~~ no later than 30 days<sup>1</sup>.
