
11TH MEETING OF THE COMPLIANCE AND TECHNICAL COMMITTEE (CTC)

Manta, Ecuador, 23 to 26 January 2024

CTC 11 – Doc 06_rev1

(rev1, 12 Jan 2024)

Implementation Report: Commission Record of Vessels

Secretariat

This report is provided pursuant to Paragraph 9 of CMM 05 (Record of Vessels) particularly: “At each annual meeting of the Commission, the Secretariat shall provide the Commission with a report on the implementation and operation of the Commission VMS”

CTC11 is requested to:

- note this implementation report and make any recommendations deemed appropriate.

1. Progress on Secretariat implementation of minimum data requirements

A new system to support the Record of Vessels (RoV), designed with the required constraints, has been established. Existing data has been migrated to this system, and historical incomplete data were transferred with relaxed constraints. However, any updates to this data now require the provision of required fields; otherwise, updates are not possible. The new system adheres to the minimum data standards outlined in Annex 1 of CMM 05 and the specific instructions in paragraph 12 of the CMM. Successful addition or reauthorisation of vessels in the RoV is now contingent upon the presence of all required field values, ensuring strict compliance with these standards. We appreciate your continued cooperation and understanding in these matters.

The Secretariat continues to receive vessel authorisation updates with overlapping authorisations, which presents challenges when summarising data. Last year’s paper, CTC10–Doc5_rev1, outlined the process on how this is currently being processed.

2. Record of Vessels completeness

During 2022 and 2023, the Secretariat and Members both put considerable effort into updating the SPRFMO RoV, in accordance with the revised CMM 05. The Secretariat had anticipated being able to provide metrics to describe the degree of completeness and identify any authorised vessels that may still have outstanding data deficient; however, due to the change in Data Manager and database provider, this work has not yet been undertaken. The Secretariat intends to work on this report during 2024, in time for the next annual meeting.

3. 2022 List of Authorised Vessels (including Active and Transshipping vessels)

Paragraph 12 of CMM [05-2023](#) (Record of Vessels) requires the Executive Secretary to maintain a Record of Vessels authorised to fish in the Convention Area, and to make a summary of the Record publicly available on the SPRFMO [website](#). The Record of Vessels is actively kept up to date and available to the public.

3.1 Vessels Authorised and Active in the SPRFMO Area

Table 1 summarises the vessels that were authorised on the Record of Vessels by Member/CNCP in 2022, and shows (based on received submissions, fishing activity, and transshipment data) which vessels, by type, were active in the SPRFMO Area during the same year.

As of 31 December 2022, the full Record of Vessels contained 1445 authorised vessels of which 589 were active in 2022 (Table 1).

3.2 SPRFMO Record of Vessels

Paragraph 13 of CMM 05-2023 requires that the ReV-Members indicate which of their authorised vessels have been actively fishing or engaged in transshipment in the Convention Area in each year. Table 2 indicates the list of authorised vessels and those that were active during the 2022 calendar year.

The full Record of Vessels is publicly available via the SPRFMO website:

<https://www.sprfmo.org/web/public/vessel>
