

12TH MEETING OF THE COMPLIANCE AND TECHNICAL COMMITTEE (CTC)

Santiago, Chile, 11 to 14 February 2025

CTC 12 – Doc 06

Implementation Report: Commission Record of Vessels (RoV)

Secretariat

1. Introduction

This document provides a comprehensive overview of the vessels authorised to operate within the South Pacific Regional Fisheries Management Organisation (SPRFMO) Convention area (Article 27 (1)(a)). The report includes details on vessel types, flag states, and registration statuses, as well as compliance with relevant Conservation and Management Measures (CMMs).

This report aims to inform Members/CNCPs, observers, and stakeholders on the current SPRFMO vessel registry. SPRFMO Record of Vessels is an essential tool in ensuring that only authorised vessels operate within the Convention Area. The record supports compliance and enforcement efforts and promotes responsible fishing practices in the region. Maintaining an updated and accurate vessel record is critical for managing fisheries sustainably and deterring illegal, unreported and unregulated (IUU) fishing.

CTC12 is requested to:

- **note** *this implementation report and make any recommendations deemed appropriate.*
- **consider** *the Combined Regional Authorised Vessels Tool and provide the Secretariat with guidance on whether it should join this initiative.*

2. Record of Vessels

2.1. Completeness of data

During the 9th Compliance and Technical Committee meeting (CTC9) the Secretariat was asked to: “to conduct additional validation procedures to cross check the fishing activity and ensure all vessels in the SPRFMO area have current authorisations” (CTC9-Report para 22). The years 2023 and 2024 saw a significant effort by Members in submitting complete data for new vessel registrations as well as updating gaps in existing vessel data. The required mandatory data for most of the Authorised Vessels in the Record of vessels is complete.

There is, however, an exception with Artisan vessels from Peru. About 64 of the Peruvian vessels do not have valid International Radio Call Sign (IRCS). In order for the vessels to get their VMS positional data linked to the RoV and displayed on CLS Vessel Monitoring System (VMS), a temporary solution of truncating the first 2 characters of the Registration number and concatenating this with the next 5 numbers to act as IRCS has been implemented. Table 1 below shows an extract of some of the vessels for demonstration purposes only. These vessels do not have IMO numbers either, but this field is not a mandatory requirement for vessels of this type.

Table 1: Extract of artisanal vessel list with temporary Call Signs

Member/CNCP	Vessel Name	Registration Number	Call Sign	IMO Number
PER	ALEXANDRA IV	PT-65993-CM	PT65993	
PER	SALOME II	PT-62666-CM	PT62666	
PER	SAN MARTIN 3	PT-62654-CM	PT62654	
PER	SAN MARTIN NRO. 5	PT-65608-CM	PT65608	
PER	SAN MARTIN NRO. 6	PT-65606-CM	PT65606	
PER	SEBASTIAN 1	PT-65067-CM	PT65067	
PER	GUIAME DIVINO CAUTIVO	PT-64946-CM	PT64946	
PER	SAN MARTIN 10	PT-62663-CM	PT62663	
PER	SIEMPRE FORTUNA	PT-64948-CM	PT64948	

2.2. Template Compatibility and Secretariat Support

The Secretariat has observed that some Members are encountering challenges in completing the Excel templates, primarily due to language barriers or inability to interpret the templates. To ensure successful data uploads, the Secretariat carries out the necessary adjustments to the data. Members who would benefit from refresher training and additional support have been identified and will be supported on case-by-case basis.

Furthermore, some Members continue to use outdated Excel templates in the ".xls" format instead of the recommended ".xlsx" version. This creates additional challenges during data uploads, as the Secretariat must manually convert these files to the latest template format before processing.

Members are strongly encouraged to use the latest version of the data templates, which are available on the SPRFMO website, for submitting their data. Where Members face difficulties in completing the templates, the Secretariat will provide support on an individual basis.

3. Proposed Enhancement of Vessel Photo Requirements

Considering the requirements outlined in CMM 19-2021 for the marking and identification of fishing vessels, particularly the obligation to mark the International Radio Call Sign (IRCS) on a deck surface, it may be beneficial to consider an additional photographic requirement within Annex 1 of CMM 05 ROV.

Currently, Annex 1 requires the submission of three high-quality digital photographs capturing the vessel's structure and markings, specifically:

- One photograph showing the starboard side of the vessel displaying its full overall length and complete structural features;
- One photograph showing the port side of the vessel displaying its full overall length and complete structural features;
- One photograph showing the stern taken directly from astern, including any superstructure.

Given the marking requirements established by CMM 19-2021, an additional photograph capturing the IRCS as displayed on a deck could provide further value for vessel identification and compliance monitoring. This additional requirement could initially apply to new vessel authorizations and be phased in over a specified period (e.g., XX years) for existing vessels to ensure a smooth transition and accommodate operational constraints.

Such an enhancement would further support enforcement and monitoring efforts by ensuring that all required vessel markings are not only implemented but also verifiable through standardized photographic evidence.

4. List of Authorised Vessels (including Active and Transshipping vessels)

Paragraph 12 of CMM 05 – 2023 requires the Executive Secretary to maintain a Record of Vessels authorised to fish in the Convention Area, and to keep a summary of the Record publicly available on the SPRFMO website. The Record of Vessels is actively kept up to date and is available to the public. The full Record of Vessels is publicly available via the SPRFMO website:

<https://www.sprfmo.org/web/public/vessel>

4.1. Vessels Authorised and Active in the SPRFMO Area in 2023

Table 2 summarises the vessels that were authorised on the Record of Vessels by Member/CNCP in 2023 and shows (based on received submissions, fishing activity, and transshipment data) which vessels, by type, were active in the SPRFMO Area during the same year.

As of December 2023, the SPRFMO Record of Vessels included a total of 1,181 Authorised vessels (Annex 1) of which 668 were active in SPRFMO in 2023.

Table 2: Summary of the authorised SPRFMO Vessels in 2023, and vessels active in the SPRFMO Area, by vessel type.

Vessels by Member/ CNCP	Authorised Vessels	Vessels active in the SPRFMO Area during 2023					
		Carriers	Liners	Trawlers	Trap setters	Motherships	Seiners
Australia	7		2				
Belize	2					2	
Chile	93						
China	718	31	522				
Cook Islands	5				1	4	
Curaçao	1						
Ecuador	1						
European Union	7		1	5			
Korea	49					1	
Liberia	14	6				8	
New Zealand	8		3				
Panama	86	51				14	
Peru	125						
Russian Federation	6	1		3			
Chinese Taipei	42						
Vanuatu	17	9				4	
Totals	1 181	98	528	8	1	33	

5. Observations and Other Updates

5.1. Engagement with the CRAVT System

The Combined Regional Authorised Vessels Tool (CRAVT) system is an advanced platform that automatically consolidates vessel-related data and information from multiple Regional Fisheries Management Organisations (RFMOs) and Regional Fisheries Bodies (RFBs). It enables users to search for specific vessels, filter vessel groups by flag, vessel type, or RFMO/RFB affiliation, and identify discrepancies in vessel records across different organizations. Additionally, CRAVT provides access to Vessel Contacts, allowing users to retrieve information on vessel companies and vessel masters.

Currently, CRAVT integrates data from several RFMOs and RFBs, including Commission for the Conservation of Southern Bluefin Tuna (CCSBT), Indian Ocean Tuna Commission (IOTC), Inter-American Tropical Tuna Commission (IATTC), Western and Central Pacific Fisheries Commission (WCPFC), North Pacific Fisheries Commission (NPFC), Pacific Islands Forum Fisheries Agency (FFA).

The Secretariat has actively participated in the initial and all subsequent meetings related to the establishment of the IMCS Network's CRAVT system. However, SPRFMO has yet to actively share its Record of Vessels (public data) through an API, with the CRAVT system, pending the endorsement of the Compliance and Technical Committee (CTC) to formalize its participation.

This would align SPRFMO with other RFMOs and RFBs in leveraging CRAVT's capabilities for improved vessel tracking, record verification, and compliance monitoring.

Annex 1: SPRFMO Record of Authorised Active Vessels in 2023¹.

Gross tonnage has been rounded to the nearest whole number.

Member/CNCP	Vessel Name	IMO Number	Vessel Type	Gross Tonnage	Date of Inclusion on the SPRFMO Record	Flag Authorisation End Date
