7TH MEETING OF THE COMPLIANCE AND TECHNICAL COMMITTEE (CTC)

Port Vila, Vanuatu, 10 to 12 February 2020

CTC 7 – Doc 08_rev1
Commission Record of Vessels Implementation Report

Secretariat

1. 2019 List of Authorised Vessels (including Active and Transhipping vessels)

Paragraph 12 of CMM 05-2019 (Record of Vessels) requires the Executive Secretary to maintain a Record of Vessels authorised to fish in the Convention area, and to make a summary of the Record publicly available on the SPRFMO website. This Implementation report continues a series of annual reports (e.g. COMM7-Inf02_rev1) but this year is presented at the CTC meeting with the other implementation reports provided by the Secretariat.

1.1. Current Vessels Authorised and Active in the SPRFMO Area

Table 1 summarises the vessels that are currently on the Record of Vessels by Member/CNCP and also shows (based on VMS data) which vessels by type were present in the SPRFMO Area during 2019. Table 1 shows that, as at 11 December 2019, the Record of Vessels contained 1 747 vessels of which 1 189 were authorised and that during 2019, a total of 546 of these vessels entered the SPRFMO Area.

1.2. Complete SPRFMO Record of Vessels

Table 2 shows the complete list of vessels that were on the SPRFMO Record of Vessels, as at 11 December 2019. Not all fields from CMM 05-2019 (Annex 1, para 2) are shown. Paragraph 13 of CMM 05-2019 requires that the Record indicate which of the authorised vessels have been actively fishing in each year. In the case of vessels involved in the *Trachurus Murphyi* fishery this information is available 20 days from the end of each month and so is presented for 2019. During 2019, 8 vessels actively fished[1] for *Trachurus murphyi* and 4 vessels were involved in Transhipment activities. For vessels involved in other fisheries this information is available on an annual basis, within 30 days of the end of the year and so is presented for 2018 only. In that year 11 vessels were involved in bottom fisheries while 453 vessels conducted squid fishing operations in the SPRFMO Area.

This year due to the availability of VMS data the Secretariat can also indicate which vessels were present in the SPRFMO Area of Application during 2019. While acknowledging that presence in the Area does not necessarily mean that a vessel has been actively fishing or engaged in transhipment for SPRFMO fishery resources this information is much more up to date and more efficient to compile than the Active vessels information provided by Members annually.

- The Commission may want to consider modifying the relevant requirement contained in paragraph 13 of CMM 05-2019 (Record of Vessels) so that VMS data (which confirms presence) may be able to be used in lieu of Member notified active vessels[2] (in this report).

The Record of Vessels is also publicly available via the SPRFMO website:
https://www.sprfmo.org/Vessels/VesselSearchView.aspx

[1] Convention, Article 1, Paragraph 1(g)(i) & (ii)
[2] Noting that the Secretariat relies on monthly and annual notified lists for verification purposes.
