After the completion of landing/transshipment, the operator or the captain shall submit the Landing/Transshipment Declaration to the competent authority. The competent authority verifies the catches with e-logbook data and other relevant data, so as to ensure the catches are legal and traceable. Such landing/transshipment information is incorporated into the Deep Sea Fisheries Management System (DSFMS) and will be used as criteria to review the application for catch document and certificate. In the case of landing, the operator shall also submit copies of invoices on sale of catches to the competent authority and the information is also incorporated in the DSFMS.

In squid fishery, the minimum landing/ transshipment inspection rates for fishing vessel flagged Chinese Taipei entering into domestic and foreign ports are 10% and 5% respectively. To monitor in-port transshipment and landing activities in foreign ports, the Fisheries Agency have deployed on-site fishery officers in Mauritius, South Africa, Fiji, Marshall Islands, American Samoa and Thailand.
