

The Russian Federation held position that the CMM for *Trachurus murphyi* and the calculation for financial contributions to the Organization were based on incomplete data in that those data not include data reported by the Russian Federation to the Interim Secretariat in 2010.

We are not in the position to support the decision unjustifiably discriminates in form or in fact against the member of the Commission, or is inconsistent with the provisions of this Convention or other relevant international law as reflected in the 1982 Convention or the 1995 Agreement.

The Russian Federation, based on its *Trachurus murphyi* catch data for 2010 reported in the Interim Secretariat in the amount of the 41 315 tons, will limit its catch in 2013 within the total allowable catch recommended by the Science Working Group. The Russian Federation will notify the SPRFMO Secretariat about its limitations in due course.

We also do not support budget of the Commission without full reflections of Russian catch data for 2010 in the budget calculation.
