

CMM 2.05**Conservation and Management Measure for the establishment of the Commission Record of Vessels authorised to fish in the Convention Area**

The Commission of the South Pacific Regional Fisheries Management Organization,

Recalling Article 27 (1)(a) of the Convention regarding the establishment of appropriate procedures for effective monitoring, control and surveillance of fishing and to ensure compliance with this Convention and the conservation and management measures adopted by the Commission, including the establishment and maintenance of a Commission record of vessels authorised to fish in the Convention Area;

Considering that according to Article 1 (1)(h) of the Convention, 'fishing vessel' means any vessel used or intended for fishing, including fish processing vessels, support ships, carrier vessels and any other vessel directly engaged in fishing operations;

Taking into account the provisions of Articles 23 and 25 of the Convention, regarding Data collection, compilation and exchange and Flag State duties,

Adopts the following conservation and management measure in accordance with Articles 8 and 27 of the Convention:

1. The appropriate government authorities of Members and Cooperating Non-Contracting Parties (CNCP) shall only authorise fishing vessels flying their flag to fish in the Convention Area where they are able to exercise effectively their responsibilities in respect of such vessels under the Convention, including relevant conservation and management measures adopted by the Commission, and in accordance with relevant international law.
2. Each Member and CNCP will take into account the history of fishing vessels and operators with respect to their compliance (or non-compliance) with relevant conservation and management measures when considering whether or not to authorise a particular fishing vessel flying its flag to fish in the Convention Area. Members and CNCPs shall ensure that no authorisation to fish in the Convention Area is issued to a vessel included on any Regional Fisheries Management Organization illegal, unreported and unregulated (IUU) list.
3. Each Member or CNCP shall take necessary measures to ensure that vessels flying their flag and authorised to fish in the Convention Area have a sufficient level of ownership by citizens, residents or legal entities within its jurisdiction to allow enforcement action to be effectively taken against them.
4. Each Member and CNCP is to maintain a register of fishing vessels entitled to fly its flag and authorised to fish in the Convention Area.
5. Members and CNCPs are to collect and include for each vessel on its register of fishing vessels entitled to fly its flag and authorised to fish in the Convention area, the data described in Annex 1 of this Measure.

6. Members and CNCPs shall inform the Executive Secretary of the vessels flying their flag authorised to fish in the Convention Area at least 15 days previous to the first entry of such vessels in the Convention Area. In doing so, Members or CNCP shall provide the Executive Secretary the vessels details, as indicated in Annex 1 of this Measure.
7. Members and CNCP shall ensure that the data of the vessels flying their flag authorised to fish in the Convention Area is updated. Any modification regarding the vessel data shall be informed by the relevant Member or CNCP to the Executive Secretary within 15 days after such modification.
8. Members and CNCP shall inform the Executive Secretary when authorisations to fish in the Convention area are revoked, relinquished or otherwise no longer valid. This information shall be submitted immediately or in any case in no more than 3 days of the date of invalidity of the authorisation.
9. The Commission Record of Vessels shall include all the fishing vessels on Member's and CNCP's record authorised to fish in the Convention area, including the data submitted by Members and CNCPs according to Annex 1 of this Measure.
10. The Executive Secretary shall maintain the Commission Record of Vessels authorised to fish in the Convention Area. A summary of the Record of Vessels shall be publicly available at the SPRFMO website, according to the provision of paragraph 7 of CMM 2.02.
11. The Record of Vessels shall indicate which of the authorised vessels have been actively fishing for each year. To this end each Member and CNCP participating in fishing activities in the Convention shall notify the Executive Secretary of the vessels that are actively fishing or engaged in transshipment in the Convention Area. In the case of vessels involved in the *Trachurus murphyi* fishery, this information shall be submitted within 20 days of the end of each month. For vessels involved in other fisheries within the Convention area, this information shall be submitted on annually basis, within 30 days of the end of the year. The Executive Secretary shall maintain lists of the vessels so notified and will make them available on the SPRFMO website.
12. When a previously authorised vessel is no longer authorised by the Member or CNCP to fish within the Convention area, such vessel shall not be deleted from the Record of Vessels, but labeled as "not currently authorised".
13. The Commission will revise this conservation and management measure at the latest in 2016 to consider amendments to this measure to improve its effectiveness and to take into account, among others, the developments of the FAO Global Record initiative as relevant.
