Korea's 2013 Implementation Report

Compliance Report

□ CMM 1.01

Conservation and Management Measure for *Trachurus murphyi*

Effort management

Paragraph 5:

Gross tonnage (GT) limits for Korea are stipulated as 15,222GT for the 2013 fishing season. Accordingly, one fishing vessel named *Gwangja* (GT: 3,012) participated in fishing operation in the Convention Area in 2013.

Catch management

Paragraph 8:

Korea's 2013 catch limit for horse mackerel (*Trachurus murphyi*) is set at 3,764 tons. However, Vanuatu made arrangements to transfer its unused entitlements (a total of 2,100 tons) to Korea. Under CMM 1.01 paragraph 10, Korea has submitted an agreement between Korea and Vanuatu on the catch transfer to the Secretariat. Accordingly, it can be interpreted that Korea's 2013 catch limit has increased to a total of 5,864 tons (3,764+1,500+600 tons) and, 5,267 tons of horse mackerel has been caught by Korean-flagged vessels as of 31 Dec. 2013.

Data Collection and Reporting

Paragraph 12:

Korea has reported monthly catches of its flagged vessels to the Secretariat for 7 months (June ~ December, 2013) using templates available on the SPRFMO website, and all the reports were made within the due date (within 10 days of the end of the month).

<Monthly catches report>

Member/CNCP	Number of reports	% submitted within 10 days
Korea	7	100

Paragraph 16:

Korea has submitted vessel monitoring system (VMS) data of its flagged vessels participating in the *Trachurus murphyi* fisheries for three times (2nd, 3rd and 4th quarters of 2013) and all of its submissions were made within the due date (within 10 days of each quarter).

*Partly, Korea has not complied with the prescribed format in 2nd and 3rd quarters of 2013, but retransmitted the data after revision when it submitted data in the 4th quarter of 2013.

Paragraph 17

Korea provided the Secretariat a list of vessels it has authorized to fish *Trachurus murphyi* and data in respect of those vessels on time. And the nation notified the Executive Secretary of the vessels that are engaged in transshipment in the Convention Area within 10 days of the end of each month.

Paragraph 19

In order to facilitate the work of the Scientific Committee, Korea has completed its annual national report and submitted it in advance of the 2013 Scientific Committee meeting.

Paragraph 20

Korea provided a report describing its implementation of this CMM on **17** January, 2014 before the meeting of the Compliance and Technical Committee.

Paragraph 23

Korea achieved 100 % scientific observer coverage of trips for vessels flying its flag by deploying observers on board *Gwangja* participating in the *Trachurus murphyi* fishery in the SPRFMO Convention Area for the 2013 season. It also ensured that such observers collect and report data as described in the SPRFMO Data Standard.
