

South Pacific Regional Fisheries Management Organisation

10th Meeting of the Data and Information Working Group

Lima, Peru, 15-19 October 2012

DIWG-10-01

DRAFT AGENDA

The purpose of the Data and Information Working Group, in consultation with other working groups and subsidiary bodies of the SPRFMO consultations is to: identify the types of data to be collected; develop standards for the collection, verification exchange and reporting of data; and develop standards for data security, and terms and conditions for making data available.

1. **Opening of the Meeting**
2. **Adoption of Agenda**
3. **Administrative Arrangements**
 - 3.1. Meeting documents
4. **Election of Rapporteur**
5. **Intersessional Work:**
 - 5.1. **Investigations into potential double-counting of catch between New Zealand and Ukraine (FAO 81 – *Trachurus* species)**

Report from the Interim Secretariat.
 - 5.2. **Landing/Transshipment Standard Fields “Name of Observer” & “Port Authority”**
6. **Observation of landings vs Observed fishing events**

The Observer Templates and Associated database tables have been designed using Annex 8 of the Data Standards and accept observations based upon individual fishing events. However, at least one participant has submitted data describing Observed unloading of vessels. The Working group is asked to decide whether think this information should be included in the database.
7. **Summary of Data submitted to the Interim Secretariat**
8. **Update on the SPRFMO database**

Report from the Interim Secretariat.

- 9. Other Business**
 - 10. Adoption of DIWG Report**
 - 11. Meeting Closure**
-
