**Vessel and Catch and Effort Data Received by the Interim Secretariat in
Accordance with Data Standards and Interim Measures**

Introduction

The following tables provide a brief summary of the Interim Measures data, and vessel and catch and effort data received to date by the Interim Secretariat, SPRFMO.

These tables aim to indicate whether data have been submitted according to the “Interim Measures adopted by Participants in Negotiations to Establish the South Pacific Regional Management Organisation”, and “Standards for the collection, reporting, verification and exchange of data” agreed at the 3rd meeting in Reñaca, Chile.

Please note that these summaries are preliminary. The Interim Secretariat is liaising with Participants to confirm that all data submitted have been included in the tables below.
