

**10<sup>th</sup> MEETING OF THE SCIENTIFIC COMMITTEE**

*26 to 30 September 2022, Seoul, Korea*

**SC10-Doc15  
United States of America Annual Report**

*United States of America*

**Annual Report of the United States on Fishing and Research  
Activities in the SPRFMO Area during 2021 and 2022**  
Report to the 10<sup>th</sup> Scientific Committee Meeting

We submit this Annual Report to the 10th Scientific Committee Meeting of SPRFMO following “Guidelines for Annual Reports to the SPRFMO Scientific Committee” (SC5-Doc7\_rev3).

**1. OVERALL SUMMARY**

The United States currently has no vessels participating in the fisheries managed by SPRFMO. As such, the United States has no data or information to provide regarding U.S. fisheries operating under SPRFMO jurisdiction in 2021 or 2022. Similarly, the United States has no information to provide regarding 1) catches, effort, and CPUE summaries; 2) fisheries data collection and research activities; 3) biological sampling and length/age composition of catches; 4) ecosystem approach considerations; and 5) observer implementation reports for fishing activities under SPRFMO jurisdiction.

The United States has a continuing interest in the fisheries managed by SPRFMO and may have vessels that enter these fisheries in the future. If U.S.-flagged vessels enter SPRFMO-managed fisheries, the United States would provide the Commission with all relevant data and information and abide by all relevant measures adopted.
